

BUCKRAM TAPE

Narrowtex buckram tape is used to stiffen the top of the curtain for the design of hand pleated headings. The stiffening tape holds the fabric more rigid, allowing pleated shapes to be created and stabilized more easily therefore, pleats are kept in place when they are sewn.

Buckram tape is thick with a canvas-like feel thus adding body to the top of the curtain. Besides achieving a desirable pleating action, drapery pins do not damage the fabric.

BENEFITS OF BUCKRAM CURTAIN TAPES

- Choice of packaging – wound onto rolls or lap-folded
- Printed tape – promotes company brand awareness
- Heat finished or starched – reduce shrinkage during cleaning
- Superior tape performance – excellent quality and inspection processes
- Diverse product range – many choices in styles, widths and pleating effects

QUALITY ASSURED

TYPICAL CURTAIN HEADINGS THAT ARE SEWN USING BUCKRAM TAPES ARE:

- French or knife pleats
- Box or café Pleats

Goblet Pleated draperies are modern, elegant and extremely decorative and delivers a more modern heading style. The key feature is a rounded shape at the top where the buckram tape is located to create the heading of the drape. The name of this elegant heading comes from the shape of the pleat, which looks like a goblet.

BUCKRAM TAPE

PRODUCTS	WIDTH	ROLLS	LAPFOLDED	TYPE OF FACBRIC	FABRIC ESTIMATION	RODS OR TRACKS	POCKETS	DRAWCORDS
