

GATHER TAPE

Gather header tapes are a traditional yet informal style which are perfect for curtains with a shorter drop. They can be used with tracks or poles and have a single row of pockets for the hooks.

The ruffled top is classic, and makes for an understated finish, making it a practical simple choice of header tape. The tape allows for variable fullness but curtains typically need to be made with at least twice the fullness to give a pleasing depth of pleat. The final pleating effect has a relaxed country-type style.
